

Downloading the Medtech recall screening term for Get Checked reviews in Predict.

- From the Predict webpage <http://www.enigma.co.nz/index.cfm?PageID=68>. Save the download onto your desktop
- In Medtech go to 'set-up' then 'recalls/screening terms'
- 'Screening terms' will then appear in the top bar
- Go to the top bar screening terms then insert disk
- Retrieve the file from desktop and open it.
- You may need to close down and reopen Medtech to check the recall is working correctly.

Any problems phone Abby at Well Dunedin PHO 477 1163
